**NOTES:**

1. The offeror will enter unit prices for each pricing period on the Price Evaluation Sheet.  
All ranges and years must be filled in to be accepted. All unit prices will be binding to the Government.  
Prices will be submitted as FOB destination.
2. The offeror must submit price in the space provided on the Price Evaluation Spreadsheet.
3. The Government will develop an evaluation price for each offeror.  
This will be done by multiplying each range price times the percentage assigned, times the maximum quantity of each range. All ranges and years will be added to arrive at a total evaluation price.
4. Evaluation of the price will include determining reasonableness and realism.  
Reasonableness is interpreted to mean that the price does not exceed what would be incurred by an ordinarily prudent person in the conduct of competitive business. Realism asks "Does the proposal price accurately reflect the offeror's proposed effort to meet the program requirements and objectives." An unreasonable or unaffordable price may preclude an offeror from award. The Government retains the right to obtain additional cost/price data from any offeror in the event of a lack of competitive bids.
5. If the offeror fails to propose for all pricing periods or ranges, the Government may reject that offer as unacceptable.
